Karkala, S.Kanara,

30- 1- 1953.

From

Enc—1.

Sri P.Bhavani Rao, M.B.,C.M.,
Retired Civil Assistant Surgeon,
Karkala, South Kanara.

To

The Secretary,
Public Health Department,
Government of Madras,
Fort St. George,
M a d r a s.

S i r,

Ref:- Request for decision and instructions by the Government to the Karkala major Panchayat, South Kanara, for notification of residential area, etc. including Tellar Road locality, as residential area as this matter has been pending since June 1950.

Tellar Road area named as Ananthashayana locality in the Panchayat classification proposals dated 31- 12- 1950. S.Nos. 91- 268- 470, 467 - 417- 269- 270- 409 also 477 and 473.

In continuation of previous petitions and telegrams on this subject, the following facts are submitted for kind consideration and favourable orders:

It is submitted that as early as June 1950 -on refusal of permission by the Director of Public Health, Madras, (for installation by Sri A.N.S.Achar of a d saw and oil mill with 10 H.P. Oil engine in Tellar Road in S. No.268/1B2 -a site amidst residential buildings and outside industrial areas). Vide Order dated 24th 5- 1950 L. Dis. No. 2814- H G Y G/50/2).- petitions for separation and notification of residential areas in the Panchayat were submitted to the Panchayat, the Deputy Inspector of Local Boards and Municipal Councils, Coimbatore, the District Collector, South Kanara, the Director of Public

Health, the Director of Town Planning, Madras, and the District Health Officer, South Kanara (The Industrial areas in the Karkala Panchayat having been already separated and notified in April 1946.

As per instructions received from the Director of Public Health, Madras, the Panchayat took up this work of separation and notification of areas in the Panchayat and at its meeting about June 1950 also formed a Committee for making recommendations and this Committee unanimously made certain proposals including Tellar Road locality amongst residential areas.

The mill applicant - Sri A.N.S.Achar understanding Tellar Road locality was being included in the residential areas, submitted about August 1950 a fresh petition to the Panchayat for installation of an oil mill with 10 H.P. electric motor in the same old site S.No.268/1B2 in Tellar Road.

Soon after this, the Committee mentioned above for classification purpose fell through on some technical grounds, and the Panchayat took time for notification of areas till 31- 3- 1951.

Petitions were submitted to the Panchayat, the Executive Officer of the Panchayat, the District Health Officer, South Kanara, the District Collector, South Kanara, the Director of Public Health, Madras and the Director of Town Planning, Madras - for early separation of residential areas, etc. in the Panchayat, objecting to the mill installation in Tellar Road.

Petitions were also submitted to the above Officers

by the mill applicant Sri A.N.S. Achar for permission for installation of mill in Tellar Road, S.No. 268/1B2.

The District Collector, South Kanara, called for a report in this connection from the Tahsildar, Karkala, and it is stated that the Tahsildar reported about October 1950, the Tellar Road locality as a residential area.

The Director of Public Health, Madras, on the petitions submitted to him, inspected in October 1950 all the localities of the Panchayat personally, including the Tellar Road locality in the presence of the party objecting to the mill installation and the party in favour of the mill installation and heard their representations. He also forwarded his recommendations to the Panchayat in his letter dated 4-12-1950 recommending the Tellar Road locality as residential area par excellence among other recommendations, making ample provision for residential, industrial areas and also for light industries in the Panchayat with ~~h~~ the necessary map.

But the Panchayat at its meeting held on 30-12-1950 completely over-ruled all the recommendations made by the Director of Public Health, Madras, and classified Tellar Road area as industrial area, along with other industrial areas, though in the Committee noted above for classification purpose, Tellar Road had been included amongst residential areas (owing to the influence of the mill applicant - Vide notification of classification proposals by the Panchayat dated 31-12-1950 already submitted to the Government. (Beg to be excused for submitting the same).

Also the Panchayat at its meeting on 16-2-1951 passed a resolution for granting permission to Sri A.N.S. Achar for oil mill installation with 10 H.P.Electric Motor in Tellar Road site, against the recommendation of the Director of Public Health.

This resolution was suspended by the District Collector in his order dated 17- 2- 1951 as the installation of mill in Tellar Road was detrimental to the interests of the residents, etc.

Consequently, complications started and the matter went up to the Government.

The Town Planning Expert inspected all the localities of the Panchayat personally in April 1951 including Tellar Road area in the presence of the party objecting to the mill and the party favouring the mill installation, and forwarded his recommendations to the Panchayat, agreeing with the recommendations of the Director of Public Health, Madras, and also recommending Tellar Road as residential area. The Panchayat however did not agree to the recommendations made by this Officer also (the Town Planning Expert) and put off the notification of areas on account of this controversy over mill installation "amidst" decent residential buildings in Tellar Road site S.No.268/1B2.

Representations were made to the authorities concerned and the Government on this subject, both by the party objecting to the mill and the party favouring the mill installation in Tellar Road S. No. 268/1B2 and complications continued. The work of notification of areas in the Panchayat was not carried out by the Panchayat, though

notification of classification proposals by the Panchayat dated 31- 12- 1950 had been carried out as noted above, and the localities of the Panchayat had been inspected by the Director of Public Health and the Town Planning Expert, Madras, for necessary approval, prior to notification as required under Sections 89 and 90, Public Health Act, 1939, and G.O. No:1119 P.H. dated 7- 6- 1927, and also ample provisions had been made for the residential, industrial areas and for light industries on the recommendations made by the above mentioned expert authorities.

As ordered by the District Collector, South Kanara, the Tahsildar, Karkala, submitted a report about July 1952. In this report, though the Tellar Road locality has been admitted as residential area, it is stated that the Tahsildar made certain recommendations of his own, regarding classification of areas, against the recommendations made by Expert authorties, - the Director of Public Health and the Town Planning Expert, Madras - which in fairness was most unkind to the above Expert authorities, and the order of the District Collector of South Kanara, noted above dated 17- 2- 1951 recording that the installation of mill in Tellar Road would be detrimental to the interests of the residents, etc. and specially as the selection of areas for notification in the Panchayat is a matter requiring the approval of expert authorities as mentioned above, under the Public Health Act, 1939 and Government Orders.

The Panchayat also persisted in their classification proposals about October 1952 without giving any reason, even when called for by the District Collector, South Kanara the reasons for their not accepting the recommendations of the above expert authorities.

Therefore, for the above reasons, and as the classification and notification of areas in the Panchayat has long been delayed, and papers connected with the same are pending, and orders regarding the mill controversy in the Tellar Road S.No.268/1B2 in the Panchayat has now been passed, refusing permission to Sri A.N.S.Achar, for mill installation in S.No.268/1B2 Tellar Road- the Tellar Road area being admitted as an ideal residential area - vide G.O.Ms. No.4068 Health dated 26-12-1952, and the procedure to be adopted prior to Notifications of areas has been gone through, and there is a difference of opinion between the Karkal Panchayat, South Kanara and the Expert authorities (The Director of Public Health and the Town Planning Expert, Madras) - it is requested that the Government would now kindly decide the classification of areas as per Section 90 of the Madras Public Health Act, 1939 and Section 93(2) Madras Village Panchayat Act, 1950, kindly taken into consideration, the recommendations made by the Director of Public Health (Vide Letter dated 4- 12- 1950 - copy enclosed) and the Town Planining Expert, Madras (report dated about April 1950) and kindly pass orders issuing necessary instructions to the Karkala Panchayat, South Kanara to notify the areas, residential etc. in the Panchayat chiefly directing to notify Tellar Road locality as a residential area.

Finally, I an aged medical person, in the interest of the Panchayat and residents, once more pray that orders may be kindly passed to the Panchayat to notify early, the different areas in the Panchayat, particularly to notify Tellar Road as a Residential area, as the same is an ideal residential area with several decent residential buildings and house-sites purchased at some cost, as noted above in G.O. Ms. No.4068 Health dated 26- 12- 1952, and there is

not a single industrial concern in this locality and also the same has been recommended as residential area par excellence by expert authorities, as otherwise complications would arise, and there would be danger to health, and the residents would suffer.

Beg to be excused for the liberty taken,

Thanking you,

Yours faithfully,

M.B.,C.M.,
Retired Civil Asst.Surgeon,
Karkala, S.Kanara.

The Director of Town Planningm Madras.

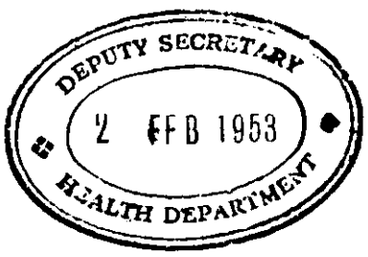
for favour of information and kind necessary action as per Sections 89 and 90 Public Health Act, 1939 and Section 93(2) Madras Village Panchayat Act, 1950, as the matter has been long delayed, and complications would arise.

R.No.65216-2 H.Y G.(2) 50 Office of the Director of Public Health, Madras /4-12-1950

To

The District Health Officer
South Kanara

Sir,



Sub.-Licence - Karkala Panchayat South Kanara District
Installation of Saw Mill in Tellar Road
By Sri A. N. Sitarama Achar - grant of permission.

Ref: His letter Ref. C.No.3400 B.50 d/27-9-1950

5443

The District Health Officer, South Kanara, is informed that the Tellar Road in which the site under reference is situated, is a Residential Area par Excellence. The Durga Road may also be developed likewise. Where these roads pass beyond select residential areas (as explained with reference to the map of the Town) they may be utilised for small industries with electric power As regards Industrial areas the sector between Udipi and Mangalore Road may be developed as such. Non industrial non-residential areas may be sites along bazaar and market areas, and along Udipi road beyond a certain point&c.

It is not, therefore, advisable to take up individual instances without first of all settling these areas and notifying them as it would cut across a rational development of the Town and lead to unnecessary controversy and acrimony. Once the areas are settled individually instances can be decided on merits with reference to the principles laid down in Government Orders and without detriment to Public Health or comfort.

The Panchayat should be asked not to consider the questions at all till the residential and industrial areas are properly proposed, approved and notified.

The enclosures received with his letter referred to above are returned herewith. The receipt of the same may be acknowledged.

Sd/ T. Lakshminarayana,
Director of Public Health,
Madras

Karkala, South Kanara,
30- 1- 1953.

From

Sri P. Bhavani Rao, M.B.,C.M.,
Retired Civil Assistant Surgeon,
Karkala, South Kanara.

To

The Secretary,
Public Health Department,
Government of Madras,
Fort St. George,
M a d r a s.

S i r,

Ref:- Request for decision and instructions by the Government to the Karkala Major Panchayat, South Kanara, for notification of residential areas, etc., including Tellar Road locality as residential area as this matter has been pending since June 1950.

Tellar Road area named as Ananthashayana locality in the Panchayat classification proposals dated 31-12-1950 - S. Nos. 91 - 268 - 470 - 467 - 417 - 269- 270 - 409. also 477 and 473.

In continuation of previous petitions and telegrams on this subject. the following facts are submitted for kind consideration and favourable orders:-

It is submitted that as early as June 1950 on refusal of permission by the Director of Public Health, Madras (for installation by Sri A.N.S.Achar of a saw and oil mill with 10 H.P. Oil Engine in Tellar Roddin S. No. 268/1B2 - a site amidst residential buildings and outside industrial areas) - Vide Order dated 24- 5- 1950 L. Dis. No. 2814 - H G Y G/ 50/2) - petitions for separation and notification of residential areas in the Panchayat were submitted to

the Panchayat, the Deputy Inspector of Local Boards and Municipal Councils, Coimbatore, the District Collector, South Kanara, the Director of Public Health, the Director of Town Planning, Madras, and the District Health Officer, South Kanara (The Industrial areas in the Karkala Panchayat having been already separated and notified in April 1946.

As per instructions received from the Director of Public Health, Madras, the Panchayat took up this work of separation and notification of areas in the Panchayat and at its meeting about June 1950 also formed a Committee for making recommendations and this Committee unanimously made certain proposals including Tellar Road locality amongst residential areas.

The mill applicant - Sri A.N.S.Achar understanding Tellar Road locality was being included in the ~~[illegible]~~ residential areas, submitted about August 1950 a fresh petition to the Panchayat for installation of an oil mill with 10 H.P. electric motor in the same old site S.No.268/1B2 in Tellar Road.

Soon after this, the Committee mentioned above for classification purpose fell through on some technical grounds, and the Panchayat took time for notification of areas till 31- 3- 1951.

Petitions were submitted to the Panchayat, the Executive Officer of the Panchayat, the District Health Officer, South Kanara, the District Collector, South Kanara, the Director of Public Health, Madras and the Director of Town Planning, Madras - for early separation of residential area, etc. in the Panchayat, objecting to the mill installation in Tellar Road.

Petitions were also submitted to the above Officers by the mill applicant - Sri A.N.S.Achar for permission for installation of mill in Tellar Road, S.No. 268/1B2.

The District Collector, South Kanara, called for a report in this connection from the Tahsildar, Karkala, and it is stated that the Tahsildar reported about October 1950, the Tellar Road locality as a residential area.

The Director of Public Health, Madras, on the petitions submitted to him, inspected in October 1950 all the localities of the Panchayat personally, including the Tellar Road locality in the presence of the party objecting to the mill installation and the party in favour of the mill installation, and heard their representations. He also forwarded his recommendations to the Panchayat in his letter dated 4-12-1950 recommending The Tellar Road locality as residential area per excellence among other recommendations, making ample provision for residential, industrial areas and also for light industries in the Panchayat with the necessary map.

But the Panchayat at its meeting held on 30-12-1950 completely over-ruled all the recommendations made by the Director of Public Health, Madras, and classified Tellar Road area as industrial area, along with other industrial areas, though in the Committee noted above for classification purpose, Tellar Road had been included amongst residential areas (owing to the influence of the mill applicant - beg to be excused for submitting the same). Vide Notification of classification proposals by the Panchayat dated 31- 12- 1950 already

submitted to the Government.

Also the Panchayat at its meeting on 16-2-1951 passed a resolution for granting permission to Sri A.N.S. Achar for oil mill installation with 10 H.P. electric motor in Tellar Road site, against the recommendation of the Director of Public Health.

This resolution was suspended by the District Collector in his order dated 17- 2- 1951 as the installation of mill in Tellar Road was detrimental to the interests of the residents, etc.

Consequently, complications started and the matter went up to the Government

The Town Planning Expert inspected all the localities of the Panchayat personally in April 1951 including Tellar Road area in the presence of the party objecting to the mill and the party favouring the mill installation, and forwarded his recommendations to the Panchayat, agreeing with the recommendations of the Director of Public Health, Madras, and also recommending Tellar Road as residential area. The Panchayat however did not agree to the recommendations made by this Officer also (the Town Planning Expert) and put off the notification of areas on account of this controversy over mill installation 'amidst' decent residential buildings in Tellar Road site S.No.268/1B2.

Representations were made to the authorities concerned and the Government on this subject, both by the party objecting to the mill and the party favouring the mill installation in Tellar Road S.No. 268/1B2 and complications continued. The work of notification of areas in the Panchayat was not carried out by

the Panchayat, though notification of classification proposals by the Panchayat dated 31- 12- 1950 had been carried out as noted above. and the localities of the Panchayat had been inspected by the Director of Public Health and the Town Planning Expert, Madras, for necessary approval, prior to notification as required under Sections 89 and 90, Public Health Act, 1939, and G.O.No. 1119 P.H. dated 7- 6- 1927, and also ample provisions had been made for the residential, industrial areas and for light industries on the recommendations made by the above mentioned expert authorities.

As ordered by the District Collector, South Kanara, the Tahsildar, Karkala, submitted a report about July 1952. In this report, though the Tellar Road locality has been admitted as residential area, it is stated that the Tahsildar made certain recommendations of his own, regarding classification of area, against the recommendations made by Expert authorities, - the Director of Public Health and the Town Planning Expert, Madras - which in fairness was most unkind to the above expert authorities, and the order of the District Collector, South Kanara .noted above dated 17-2-1951 recording that the installation of mill in Tellar Road would be detrimental to the interests of the residents, etc. and specially as the selection of areas for Notification in the Panchayat is a matter requiring the approval of expert authorities as mentioned above, under the Public Health Act, 1939 and Government Orders.

The Panchayat also persisted in their classifi-

cation proposals about October 1952 without giving any reason, even when called for by the District Collector, South Kanara, the reasons for their not accepting the recommendations of the above expert authorities.

Therefore, for the above reasons, and as the classification and notification of areas in the Panchayat has long been delayed, and papers connected with the same are pending, and orders regarding the mill controversy in the Teller Road S.No. 268/1B2 in the Panchayat has now been passed, refusing permission to Sri A.N.S.Achar for mill installation in S.No.268/1B2 Tellar Road - the Tellar Road area being admitted as an ideal residential area - vide G.O.Ms. No. 4068 Health dated 26-12-1952, and the procedure to be adopted prior to Notifications of areas has been gone through, and there is a difference of opinion between the Karkal Panchayat, South Kanara and the Expert authorities (The Director of Public Health and the Town Planning Expert, Madras) - it is requested that the Government would now kindly decide the classification of areas as per Section 90 of the Madras Public Health Act, 1939, and Section 93(2) Madras Village Panchayat Act, 1950, kindly taking into consideration, the recommendations made by the Director of Public Health (vide letter d/- 4-12-1950 - copy enclosed) and the Town Planning Expert, Madras (report dated about April 1950) and kindly pass orders issuing necessary instructions to the Karkala Panchayat, South Kanara, to notify the areas, residential etc. in the Panchayat- chiefly directing to notify Tellar Road locality as a residential area.

Finally, I an aged medical person. in the interest

of the Panchayat and residents, once more pray that orders may be kindly passed to the Panchayat to notify early, the different areas in the Panchayat, particularly to notify Tellar Road as a residential area, as the same is an ideal residential area with several decent residential buildings and house-sites purchased at some cost, as noted above in G.O. Ms. No. 4068 Health dated 26-12-1952 and there is not a single industrial concern in this locality and also the same has been recommended as residential area par excellence by expert authorities, as otherwise complications would arise, and there would be danger to health, and the residents would suffer.

Beg to be excused for the liberty taken.
